Textures

Our textures are hand applied using traditional dexterity methods, produced through tube and hammer technique. As most of our textures are produced by hand, natural variations will occur and will add a unique beauty to each piece.

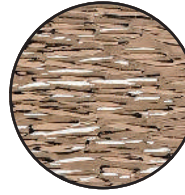

Many of these textures can be found in our product range, although there are limitations with some of the textures due to them being handcrafted.

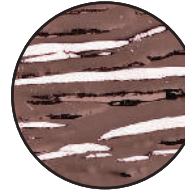

METAL TEXTURES - INLAY

__Inspiration

HOLD is committed to encourage and represent the most authentic handcrafted products, by understanding and re-interpreting the past through technology and contemporary design.

Each creation carries the legacy of finest craftsmanship. Talented artisans challenge and combine design & ideas to shape the high-quality materials into remarkable hardware accessories, which gives direction to timeless cosmopolitan environments. Combining the concepts of jewellery and design led to a path of exploring new aesthetic perspectives with architectural and artistic influences.

Expect to find diverse range of style on hardware collections, spreading a sense of exquisite and legacy.

__Brand avowal

To achieve the unique Trundled and Hammered designs and textures, we follow three traditional handcraft metalworker principles - Desire, Dexterity and Constancy.

Desire

"The starting point of all achievement is desire" – It is our inspiration to visualize, design and craft the most exquisite line of decorative hardware products

Dexterity

"Man has no substitute" – It is the sublime art and passion-to-detail of our craftsmen that is coupled with years of experience to invent Door Handles, Bathroom Equipment and Accessories in unimaginable shapes and combinations for the connoisseur.

Constancy

All our products are manufactured using high grade material that is creatively processed in various finishes and artistically moulded to define your individuality.

Overview

Our artisans are driven by skill, passion and endless talent, ensuring that each piece of hardware is both beautiful and perfectly functional. We reinvent how decorative hardware is perceived, combining unique traditional techniques with bold and exciting designs unleashing the ultimate luxury experience.

One-of-a-kind stories are brought to life through a passionate journey inspired by the desire to produce art that blends and amplifies. Hold is founded to create a unique and inspiring character for your interior designs by introducing you to creative art.

Hold embraces range which are versatile and highly customizable, we provide solutions that match our clients' artistic impressions to turn their ideas into reality.

Breeze in with your ingenious imaginations to build a new design story with us.

HANDLES

DOORS & CABINETS

Selecting the particular handle defines your taste and individuality. It may be a small element of your interiors, but it plays a pivotal role in enhancing the magnificence of your décor.

From material selection to product drawings, casting to hammering the formed metal, coating to finish, we produce and package all the products in sophisticated boxes to match your insatiable palate.

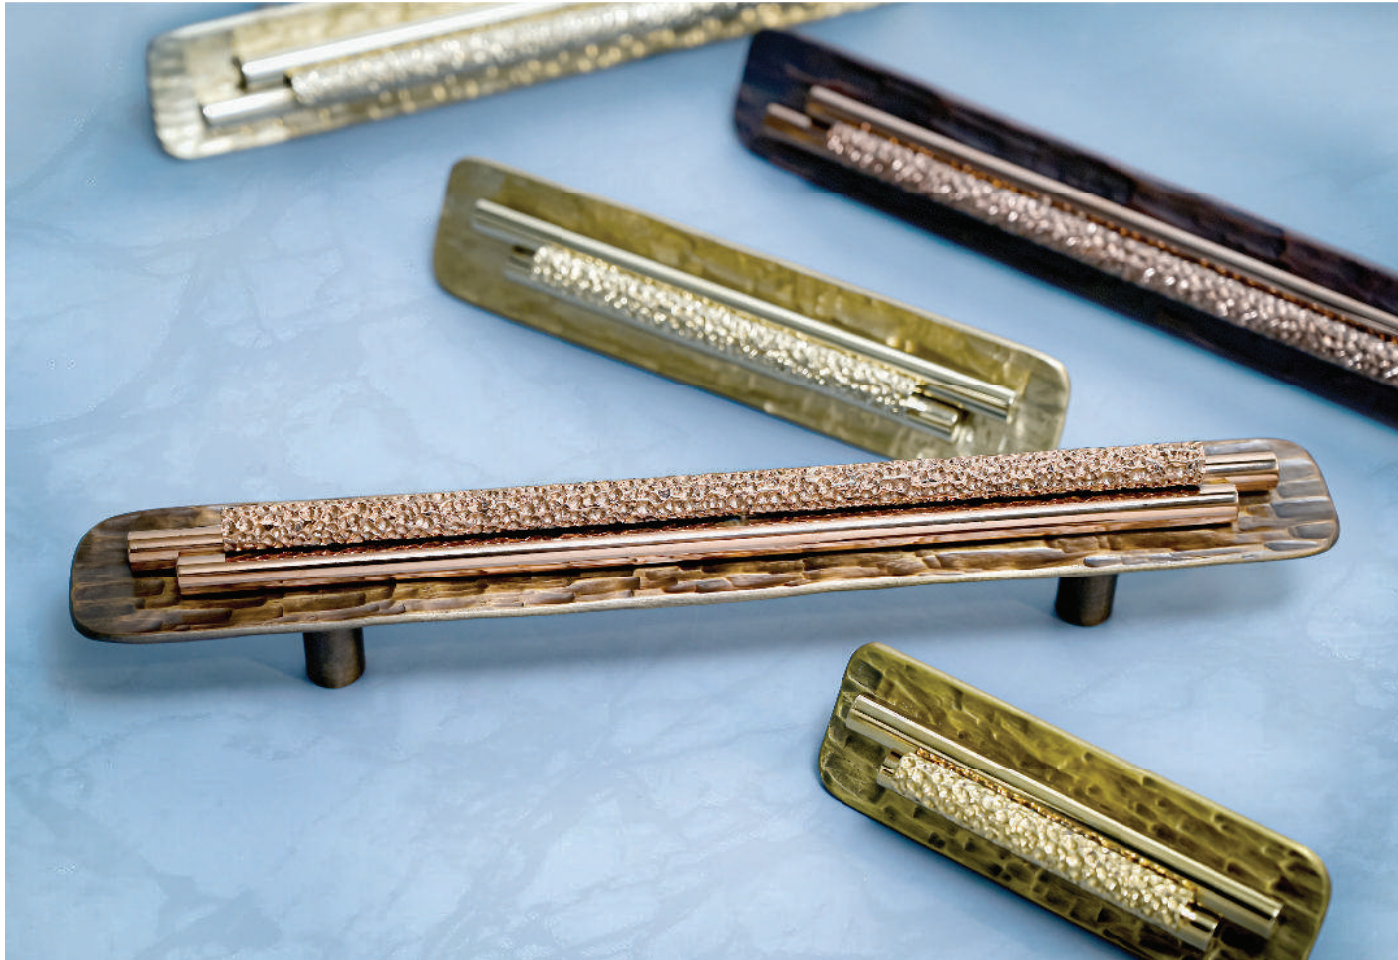

RAYAN

The “RAYAN” series is curated using a unique harmony of different textures and surface finishes. This high end door collection with beauty in detail, adds stunning looks and luxury to your decor.

KNOB

DOOR & CABINETS

A “KNOB” might be a small piece of hardware but apparently it is one of the most beautiful ornaments for all those who admire and appreciate the finer things in décor. The use of door knobs is pretty vital to ensure safety and enhance the interiors.

The first “KNOB” was developed by Osburn Dosey in 1884 and has immensely evolved since then; both in style and functionality.

AZRAR

We passionately work on designs and manufacture hand-made door knobs to complement our customer's personality and style with wide range of finishes and textures, to blend and to create a soul soothing, inimitable artwork for a perfect home.

You pick and choose the combination of your choice, we tailor the product to suit your concept and desires.

BATHROOM

EQUIPMENT & ACCESSORIES

Using trundling & hammer methodology, we design and manufacture gorgeous handcrafted bathroom equipment in high-grade material and allied metals to compliment the ornamentation of your pampering and delightful bathrooms.

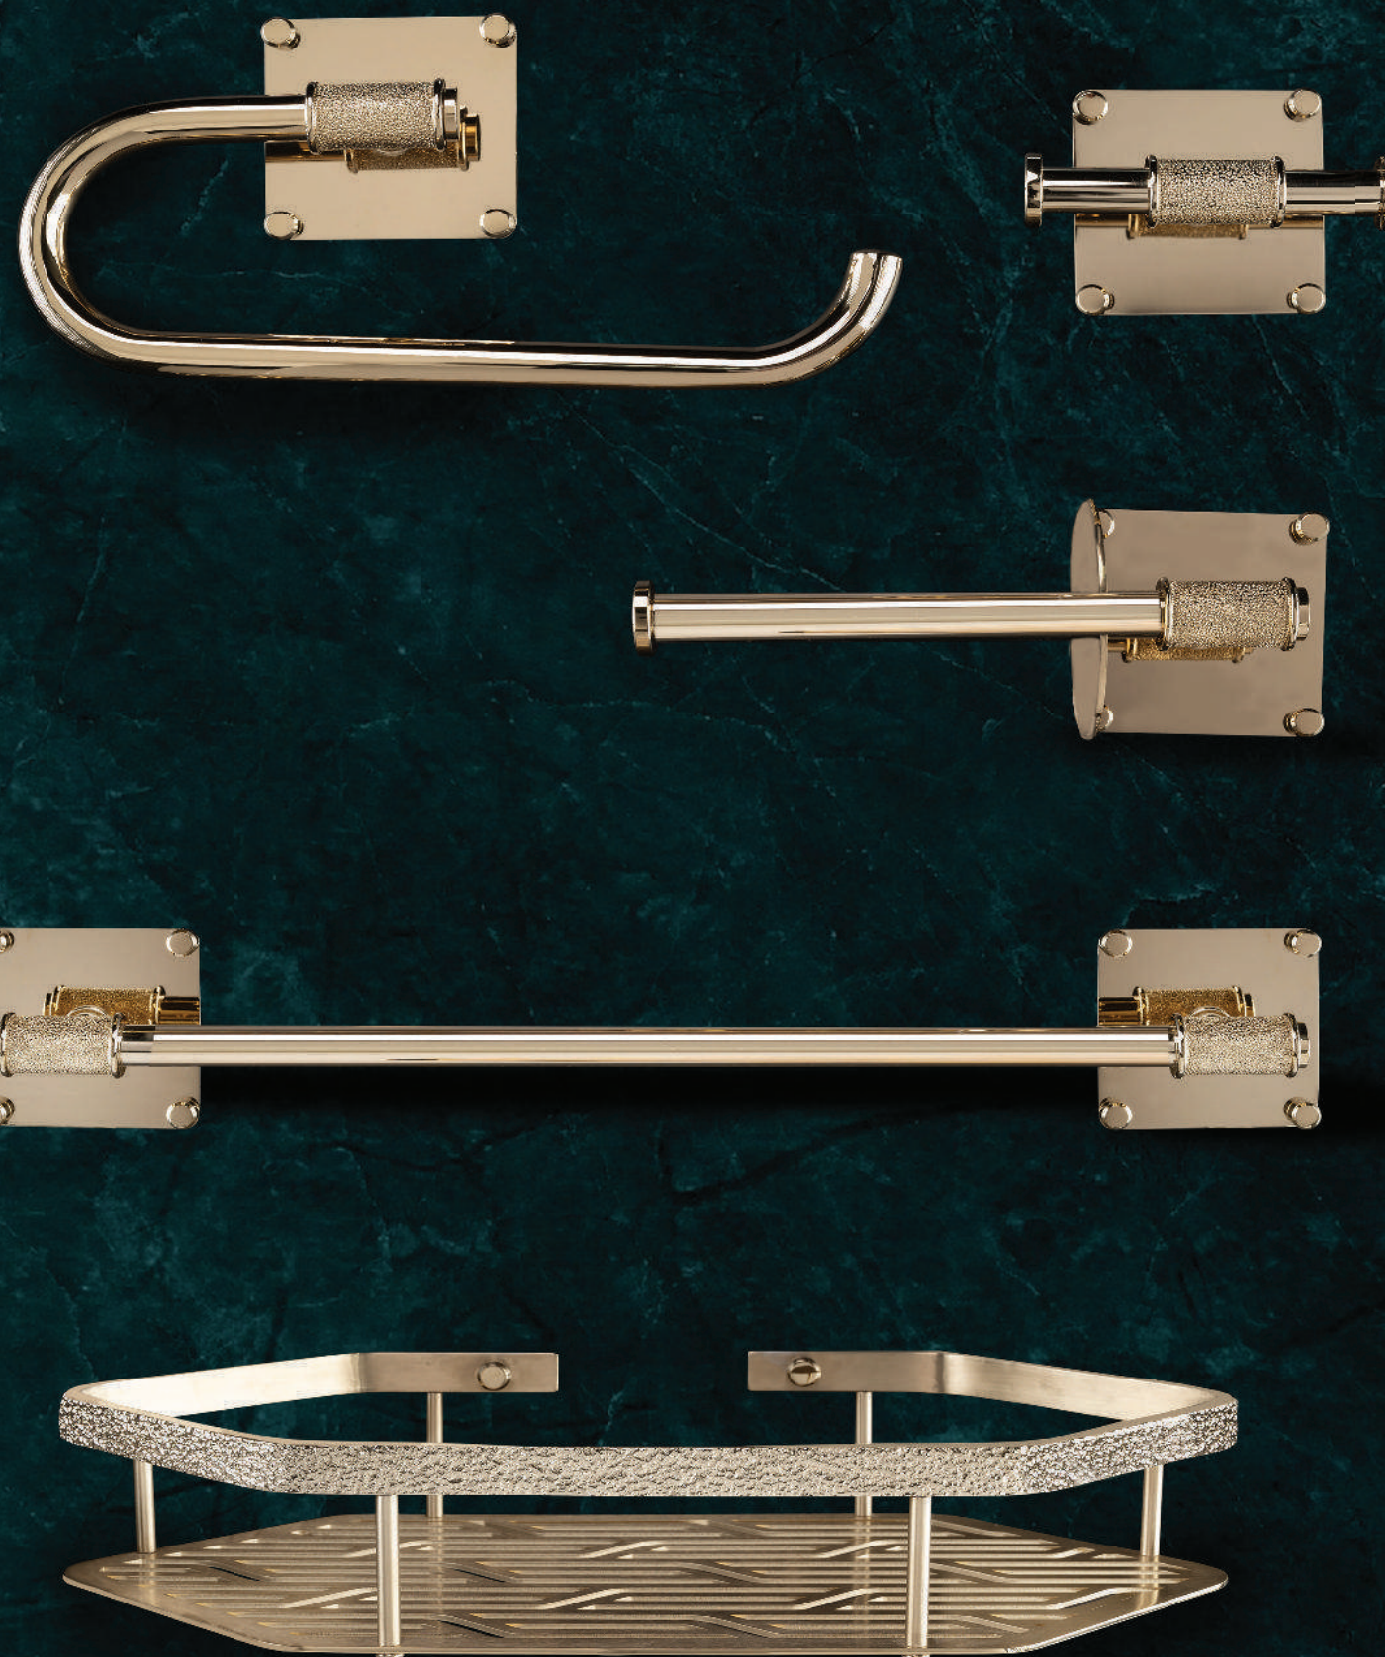

SARAH

The "SARAH" bathroom equipment series is an elegant interplay of light and reflections.

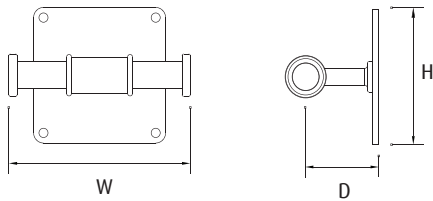

Its curvaceous, dynamic and crystallized shimmer with a strong aesthetic impact is curated to enhance the beauty of your luxurious bathroom.

Handcrafted in high grade material, the series is available in numerous PVD finishes to suit your taste.

FERROT

The “FERROT” series draws its primary inspiration from the Brazilian Mahogany – Wood & strings texture.

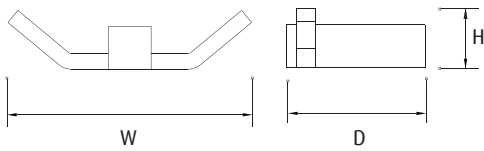

Its PVD coloured hold is inventively hammered to give it dark wood coarseness with jagged threads floating through, which is artistically combined with gold colour PVD coated bars.

The combination provides delicate features to your lavish bathroom.

Research & Development

"HOLD" passionately mixes art with material to produce the most inspirational door handles, cabinet and door holders and knobs, and exotic bathroom accessories in high-grade material. Our decorative hardware product line embodies unmatched innovativeness and the highest level of dexterousness.

CONCEPT

Idea Generation

Our R&D team is relentlessly researching and developing future generation ideas and products. Being ahead of time, our R&D personnel are largely inspired by future market trends and continually strive to develop the products around human aspirations.

RESEARCH

Assess Market

By intensively coordinating with the sales and marketing team, our R&D department assesses the customer behavior and the changing trends of the market. This enables them to collaborate efficiently with the production department to tailor innovative products and solutions accordingly.

ANALYSIS

Business Analysis

This exercise is carried out cohesively between our R&D team, the management, production department, and sales and marketing division. From production to profitability, every aspect is minutely analyzed much before reaching out to the end user.

DEVELOP

Product Development

Our R&D team is well aligned with our production division to manufacture world-class handcrafted products for our affluent customer base. At every level of production, the quality management system is well adhered to, to maintain the grace and recognition of HOLD.

LAUNCH

Product Launch

To ensure the successful launch of our products, a proper marketing plan is chalked out, followed by sales training, distribution plan and marketing collaterals and setting up of the pre launch date.
